Web Development Enthusiast | Problem Solver | Future-Ready Tech Skills

Passionate and dedicated Web Developer with a foundational understanding of web technologies. Seeking an entry-level position to contribute to and learn from innovative web development projects. With a solid foundation in HTML, CSS, and JavaScript, I am eager to leverage my skills and passion to create engaging and innovative digital experiences. My commitment to continuous learning and problemsolving drives me to contribute effectively to the development team and help shape cutting-edge web solutions.

Signature Key Skills

Project Management	Customer Service	Data Analysis
Problem Solving	Strong Work Ethics	Team Collaboration
Excellent Communication	Management and Leadership	Microsoft Office

PROJECTS

- ✦ **Image Search App:** Developed a web app using the Unsplash API to allow users to search and view images based on keywords.
- ✦ **Responsive Netflix Clone (Front End):** Created a front-end replica of Netflix focusing on layout and UI. Included movie carousels and search functionality with a responsive design.
- ✦ **Amazon Clone (Front End):** Designed a front-end clone of Amazon showcasing product listings, search, and a shopping cart. Emphasized responsive design and user experience.
- ✦ **Responsive Portfolio Website (Front End):** Built a personal portfolio website to display projects and skills. Features a responsive design and interactive elements for a professional online presence.
- ✦ **A Customer Service Model Driven App** ✦ **Canvas Apps for Electronics Sales**
